New Services

Mental Health Screening

Autism Screening

We are now offering Autism Screenings at a self-pay rate of \$160.

*Please know that this screener is not an official Autism diagnosis. This screener is just a tool that is used when Autism is suspected.

Substance Abuse Assessment

Substance abuse assessment is a process that can help diagnose substance addiction and determine its nature, such as its severity.

This questionnaire done by your therapist can help assess any mental health disorders you may have so a treatment plan can be put in place.

\$20 Self-Pay Sessions

Our intern, Lesley, will be offering \$20 sessions for self-pay or free sessions for Medicaid. She will be offering these discounted rates all summer!
